From standby 14/07/2019

Notes:

Attended site spoke to and  
undertook odour assessment.

---

---

carried out odour assessment  
prior to meeting with site.

---

Site noted who undertook their own assessment earlier in the day and found no odour other than the garden waste burning at Union Street/The Cross.

Meeting with site following odour assesement

Really Flowery smell- like  
odouriser

---

Noise corner sidlaw by parking  
area- regrigeration/generater.  
Constant hmmm.

---

Difficult to tell exact source but  
seemed more from seage sludge  
than scalding unit. went to C  
Angus STW but no definite  
location found. No known  
spreading ongoing at time of  
visit.

---

Slight metallic (?) odour present  
at a very low level throughout  
survey on corner of Sidlaw  
Crescent / Sidlaw Place.

---

Arrived into coupar Angus in car with windows down. A strong odour could be detected on driving past factory, past co-op and up George st.

Parked car

noise detected

20 mins after walking to george st where odour detected on arrival - no odour now present. to raise question if unloading/ vehicle movements probable case

after leaving co-op walk back to car no odour detected on route. Return to car 10:34

Noise sidlaw Cr

bordering offensive at site entrance

In response to complaints received over the Easter weekend.

Ou in response to a complaint received previous day although it was with reference to odours over the weekend. Did note Cat 2 Waste skip leaving site which was fairly smelly but left with the lorry. Did note the odour of burning wood in the general area.

Very close to being offensive but the duration was just less than 50% of the time when at Sidlaw Crescent.

Noise

No odour at all during visit

No odour detected up wind of site. There are several bright orange wind socks on site which clearly identify the wind direction was from the west / south west.

In the scot mid car park an unpleasant odour associated with 2 sisters chicken factory was noted at the time. The odour was like a poultry odour but had a rotten unpleasant smell. Strong/ borderline to being offensive

not as persistent sometimes no odour detected.

An unpleasant odour associated with the chicken factory was detected in the scot mid car park down wind of the site. The odour was a poultry odour with a rotten unpleasant smell. The intensity was low with no strong whiffs but was continuous throughout the assessment period

no odour up wind.

Seagulls noted

**ENV/0899725** Complainant at .  
No odours substantiated but did  
notice about a dozen seagulls  
over the site

ENV/0899991 / 0900033. No  
offensive odours

Whilst was carrying out the odour assessment a complaint was received (11:15am) (ENV/0901445) spoke to the complainant on returning to the office detailing findings.
